

EARTH QUAKE JARS CENTER OF MINNESOTA ON MONDAY

SHOCK LASTED 6 TO 8 SECONDS, 3:30 P. M.

At Brainerd Resembled Rumbling of a Heavy Train, Houses Shaken, Dishes Rattled and Clanged

In the Country Hay Cocks Danced a Foot Above Ground, Sounded Like Rumble after Explosion

 * THREE HUNDRED HOUSES *
 * REPORTED DESTROYED *
 * BY BOGOTA EARTHQUAKE *

 (By United Press)
 Washington, Sept. 4.—Three hundred houses are reported destroyed with an unknown number of casualties as a result of a severe earthquake at Bogota, Columbia, the state department is advised.

and felt and the postoffice was soon the center of an excited throng telling their experiences.
 Early in the morning a message was wired the seismographic department of Georgetown University, Washington, D. C., giving date, hour and duration of earth tremors perceived Monday afternoon at 3:30 P. M. in Central Minnesota and which lasted six to eight seconds.
 Delicate instruments at the university record tremors within 10,000 miles of Washington, and a report is expected this afternoon or late tonight.

Brainerd and Crow Wing county were the center of an earthquake Labor Day which shortly after 3:30 P. M. jarred the earth and made a rumbling noise like a train steaming in the distance. Dishes were rattled on shelves, hay cocks danced a foot in the field, houses rocked on their foundations, and one old timer said it had all been predicted by Hicks, the weather man.

The disturbance extended west as far as Wadena, north to Bemidji, south to St. Cloud, east to the Aitkin county line and affected Wadena, Beltrami, Morrison, Crow Wing, Stearns, Cass counties, the heart of Minnesota. Reports received from Little Falls, St. Cloud, Wadena, Pillager, Pequot, Bemidji, Deerwood, Crosby, Ironton, tally as to the time of the occurrence, shock which lasted from six to eight seconds and the rumbling noise.

Those in houses thought there had been an explosion outside. Messages to the Crow Wing dam power house, the Gull lake dam, the Kennedy mine at Cuyuna where a mine fire has been raging, stated there had been no explosions there and that the disturbance was an earthquake.

Members at the Chamber of Commerce in Brainerd heard the shock and rushed pellmell out of the building and to Clark's store and the basement looking for an explosion.

People within homes in Brainerd thought there was an explosion sure. Mrs. G. W. Jenkins, 720 South Broadway, said the house fairly shook on the foundation.

W. T. Larrabee was on a step ladder at the time and it swayed in the room, the paint falling from his ladder.

Dr. R. A. Belse and party were on the west shore of Gull lake and they felt the shock plainly. Fish poles were knocked down from the walls.

The reporter and family were steaming out of Hackensack on the Walker highway and that's some road and the car was hitting a forty mile clip. No earthquake was noticed as all were singing the praises of the splendid boulevard and the Case engine was singing like a sewing machine.

August Swanson, mine inspector, was at the Crow Wing dam, and said the hay stacks and hay cocks danced a foot high.

R. D. King, faithful reader of Hicks' weather prophecies, said Hicks had it down to a dot and that it had followed his predictions made over a year ago.

At Pillager chimneys rocked and the Pillager Herald type slid off the composing stone, necessitating a lot of extra work on the part of the job man, for if there is anything a newspaper man hates it's to see his type pld.
 At Pequot it was distinctly heard

News of the Bogota, Columbia earthquake received this afternoon, gave no exact hour and was undoubtedly connected with the disturbance in the heart of Minnesota. As testifying to the alert spirit of Minnesota newspapermen, the earth tremor at Brainerd and the four counties adjoining hit the printed page before the telegram came in this afternoon from Bogota.

Wilson Marched Mile and a Half with Drafted Men

(By United Press)
 Washington, September 4.—President Wilson marched a mile and a half with the first drafted men, and they were given a great ovation.

Loyal Socialist Labor Leaders Arrive Conference

(By United Press)
 Minneapolis, Sept. 4.—John Spargo and other loyal socialist labor leaders have arrived for the labor loyalty conference, and announce their support of the president.

New Socialist Party Organized Loyal to U. S.

(By United Press)
 Minneapolis, Sept. 4.—The labor loyalty conference will also mark the organization of a new socialist party which will pledge loyalty to the United States, according to the announcement of John Spargo. The new organization will be true to the ideas of American socialism and democracy. He says that Mayor Van Lear and his like are ex-socialists now.

Kaiser Exults over Capture of Riga From Russians

(By United Press)
 Amsterdam, Sept. 4.—Kaiser Wilhelm exulted with his people in the capture of Riga from the Russians. A Berlin dispatch quoted the following from a message sent by him: "This is a new milestone of German strength and her unerring will for victory."

GENERAL CROZIER.

Desires Inquiry Into Supply of Faulty Cartridges.

CROZIER DESIRES INQUIRY

Defective Cartridges Supplied to the American Army.

Washington, Sept. 4.—Steps looking to investigation of the supplying of defective cartridges to the American forces in France were taken by Brigadier General Crozier, chief of ordnance, and by the senate military committee.

General Crozier asked that a board of inquiry be named. He said a small quantity of bromide, which retards fire for a fraction of a second, had been found in about two per cent of the army's cartridges. Confidence was expressed by the general that the board will find that the defect was unavoidable and not due to negligence.

To be One Negro Regiment at Every Army Encampment

Washington, Sept. 4.—There will be one negro regiment at every army encampment where there is sufficient personnel, Adj. Gen. McCann announces, the order ending speculation as to whether negro troops would be trained with white men.

American Troops Personal Experience Creeping Barrage

(By United Press)
 American Field Headquarters, Sept. 4.—The American troops will learn by personal experience what creeping barrage fire is, the first contingent is to assemble in the first line of American trenches at the training grounds tomorrow when the French will go over the top while French guns will roar behind. The Americans are soon to try the advance with French instructors.

Canadian Troops Make Big Gains

(By United Press)
 With the British Armies, Sept. 4.—The Canadian troops penetrated over 200 yards of the German positions on the 600 yard front north of Lens.

May Indicate Loss of Warship Many are Killed

(By United Press)
 London, Sept. 4.—108 were killed and 92 injured in last night's German air raid over the Isle Thanet is the announcement made by Lord French. In an admiralty statement 107 are reported dead and 86 wounded and the large number of naval casualties may indicate to loss of a warship.

Later Advice

London, Sept. 4.—Sheerness, Catham, British Base Sheerness naval military depot says a total of 108 dead and 86 wounded. On the island of Thanet one killed and six wounded. Six airplanes were in the raid.

Beat Amendment that Would Raise Tax on Excess

Washington, Sept. 4.—The Hollis amendment to the war revenue bill which would establish a tax of from 70 to 80 per cent on excess profits on the difference between the normal profits and those of 1917 was beaten by a vote of 59 to 18.

RABBI WISE.

New York Jewish Leader Renounces Pacifist Views.

In an address at Lake Placid, N. Y., on "What Are We Fighting For?" Rabbi Stephen S. Wise of New York, after renouncing his former extreme pacifist views, declared he knew that "in this war the United States is in the right." He paid a high tribute to President Wilson.

Do Not Ask for Hohenzollern Elimination

(By United Press)
 Washington, Sept. 4.—The actual elimination of the Hohenzollern dynasty is not prescribed by the American government as a peace basis, the state department says. The indications now are that this government will be content with international reforms insuring honesty in its dealings with other nations.

Copper Mines are to Close Unless Government Acts

Butte, Sept. 4.—A long shut down of the copper mines is predicted unless the government takes control of the works.

Berlin Takes Holiday Russians Blow Bridges Thousands Prisoners

(By United Press)
 Berlin, Sept. 4.—Berlin is taking a holiday celebrating the fall of Riga.

Petrograd, Sept. 4.—The Russians did not evacuate Riga without blowing up the fortifications at the mouth of the Dvina and also all bridges across that stream. The Russian retirement still continues in a north-easterly direction, says an official report. The enemy ships are shelling the Riga coast.

Berlin, Sept. 4.—Thousands were taken prisoners in the Riga sector the arrests adding to the German victory there, and official reports declare 150 guns were seized according to the war office.

Haig Advances Line

London, Sept. 4.—Gen. Haig resumed the offensive with a sharp blow that advanced the British line northeast of St. Julle, according to an official advice.

Berlin Makes Air Claims Also

Berlin, Sept. 4.—19 of the enemy airplanes and two captive balloons were the booty downed by aerial fighting on the French front yesterday is the substance of an official report.

The stage is set and arrangements completed for what promises to be the most enthusiastic patriotic demonstration ever held in Brainerd this evening and the Park opera house, donated for the occasion by the management, should be filled to its capacity by an audience assembled to pay honest tribute to the young men who have answered to the selective draft, and many of whom leave tomorrow for training camps in the service of the nation.

A Community Affair

The demonstration is to be a community affair, different organizations joining in the details and giving of their time and talent for the common cause.

Pretty Red Cross young ladies, in the costume of the organization which is doing so much in practical effort for the comforts of the men at the front and those in the training camps of this country, will act as ushers; members of the G. A. R. and the W. R. C. will be seated in a reservation next to that made for the soldiers in the front of the auditorium; patriotic music by the Brainerd band, special music by the male quartette, flag drill by little girls assisted by the Chamber of Commerce drum corps and under the able direction of Mrs. Clyde Parker, special music by the Red Cross chorus and an inspiring address by Hon. R. M. Hughes of Duluth, will make up a program certain to gratify all who attend.

The Program

The following detailed program, as arranged under the direction of Chairman C. A. Albright and committee, will begin promptly at 8:15 p. m. and the public is urged to be present and in their seats promptly at that hour:

Invocation—Rev. M. L. Hostager.
 Opening remarks—Mayor R. A. Belse
 Selection—Brainerd band
 Outline Red Cross work—Bruce J. Broady, secretary of the Brainerd chapter, Red Cross.
 Selection—Male quartette
 Flag Drill—School girls under direction of Mrs. Clyde Parker, assisted by Chamber of Commerce Drum Corps.
 Address—"Patriotism"—Hon. R. M. Hughes, of Duluth.
 "America"—Band—Audience joining in singing the national air.

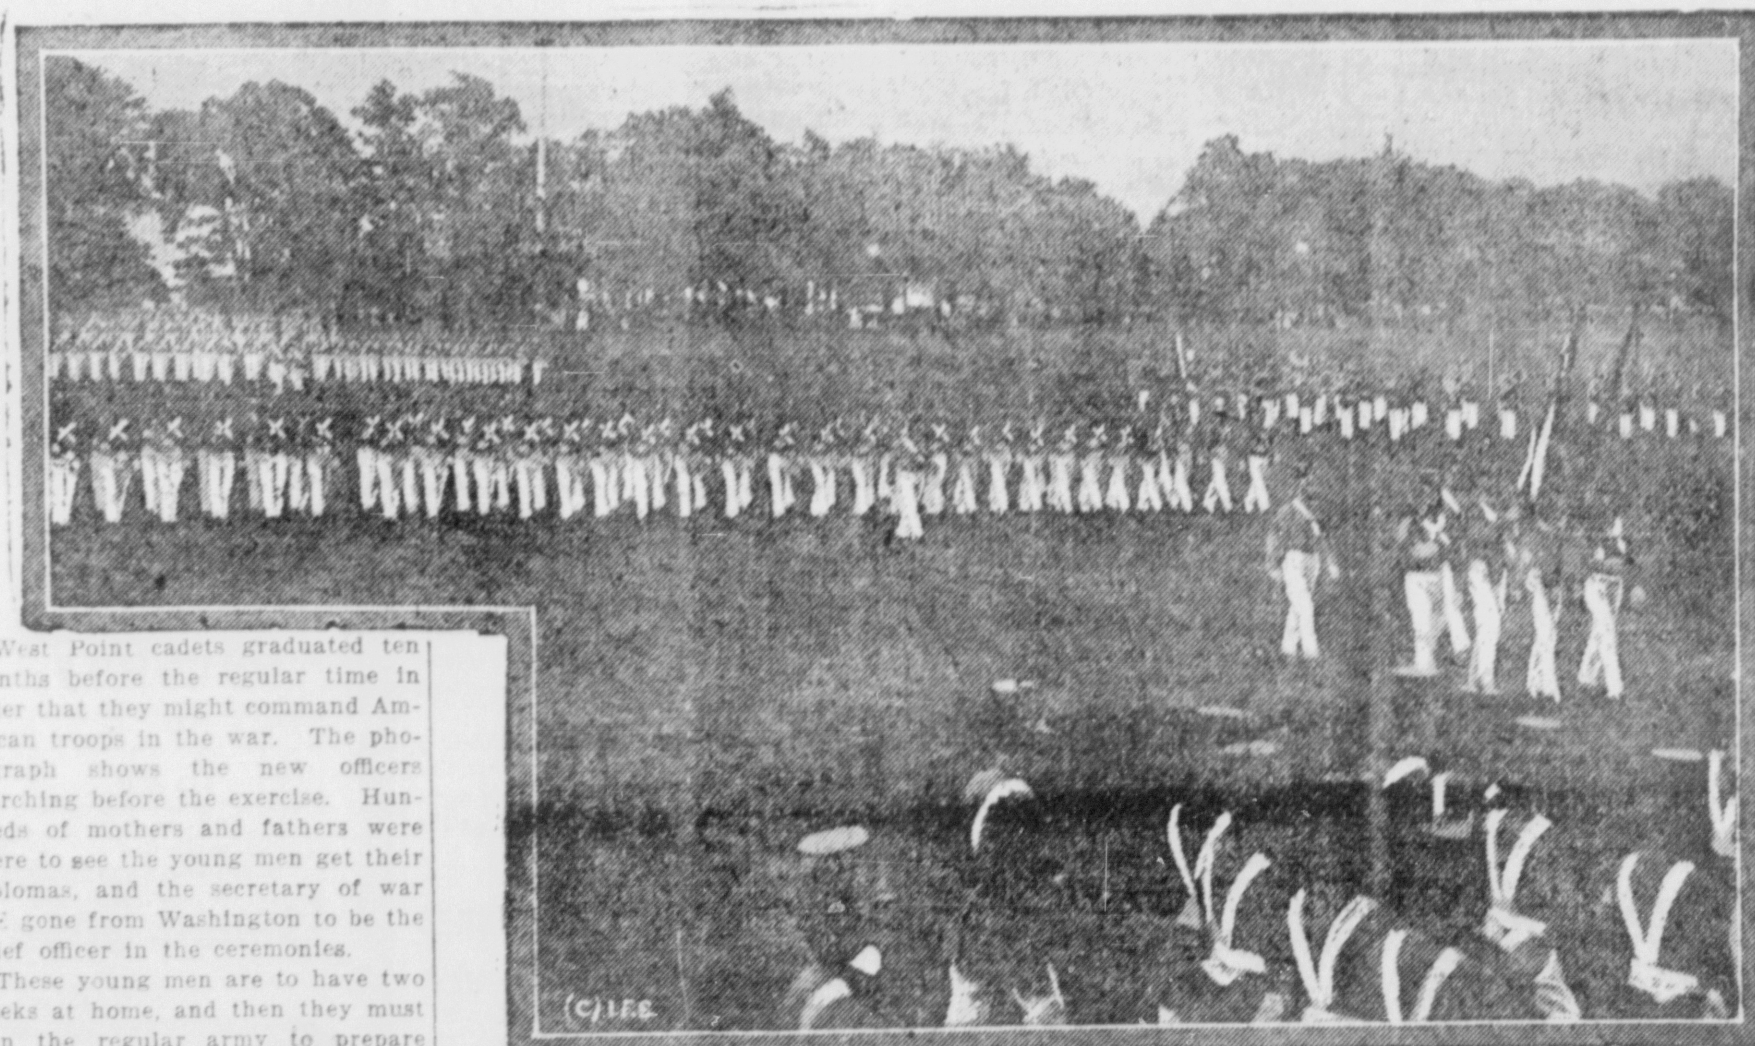

An Eloquent Speaker

Those who have had the pleasure of hearing Mr. Hughes are of the opinion that the committee has been very fortunate in securing his services. He arrived this noon on the train from Duluth and is a guest at the Ransford. Mr. Hughes has been in great demand for similar addresses during the past six months and is recognized as a strong, forceful speaker, a man well posted on the war situation and one who will inspire his hearers with the vital need of concentrated action and united effort on the part of our citizenship, at home and at the front, in order to bring to the world ultimate and lasting peace in the shortest time possible.

Public Invited

The event of this evening is in special honor of the select draft men and the public is urged to attend and indicate, by their presence, their loyal support of the government in (Continued on page 5) 47

West Point Cadets Graduating Into the War

West Point cadets graduated ten months before the regular time in order that they might command American troops in the war. The photograph shows the new officers marching before the exercise. Hundreds of mothers and fathers were there to see the young men get their diplomas, and the secretary of war had gone from Washington to be the chief officer in the ceremonies. These young men are to have two weeks at home, and then they must join the regular army to prepare troops for France. Within a short time most of them will be on the firing line there. Every member of the class is wild with the idea of going to war; he wants to get into ment can send him to France. He West Point graduates ever since the the fray just as soon as the govern- shows the spirit which has actuated foundation of the military academy.

Rebuild the Health.
An impoverished condition of the system is sometimes the cause of a red nose, and every effort should be made to rebuild the health. Nourishing food, plenty of sleep in a ventilated apartment, requisite exercise in the open and deep breathing will largely contribute toward bettering the general health.

The word translated juniper in the Scriptures refers to a plant found in the desert of Sinai, where it is abundant. It is found in Palestine, in Spain and in Portugal. It bears a white flower.

PRINCE CHRISTOPHER.

Brother of Former Greek Ruler Reaches Switzerland.

Prince Christopher, Prince Nicholas and Prince Andrew, brothers of former King Constantine of Greece, have arrived at Berne, Switzerland. Ex-King Constantine, who is now at Zurich, also is expected to go to Berne shortly.

LAKE SAILORS MAY STRIKE

Demand Same Conditions as Prevail on Atlantic.

Chicago, Sept. 4.—A strike of sailors on Great Lake freighters may be called by the end of the week unless shipowners agree to extend the Atlantic agreement to lakes. This was intimated by Victor Olander, secretary Illinois Federation of Labor and a vice president of the seamen's union. "Under the Atlantic agreement better working conditions prevail on the Atlantic seaboard than on the Great Lakes," said Olander. "If the same conditions are not put into effect by the shipowners on the Great Lakes, fore the end of the week the seamen will force them to do so."

EUROPEAN CHURCHES DEAD

Montana Bishop Calls Them Only Rubber Stamps.

La Crosse, Wis., Sept. 1.—"The churches of Europe are dead; they are only rubber stamps with which the name of God is affixed to official documents," declared Bishop Richard J. Cooke of Helena, Mont., in a speech at the annual Northwest conference of the German Methodist Episcopal church here. "The only thing which will save Germany is a mighty revival of spiritual religion. Materialistic Germany must be spiritualized."

ADJUTANT GENERAL QUILTS

Captain W. D. Rhinow Succeeds F. B. Wood.

St. Paul, Sept. 1.—Adjutant General Fred B. Wood has resigned from office. His resignation was accepted by Governor Burnquist.

The communication to the governor was brief and formal and assigned no reasons. Captain Walter F. Rhinow, military secretary to Governor Burnquist for several months, was appointed adjutant general. He will also assume the position of state draft chief.

ONE KILLED, SIX INJURED

Lone German Airplane Makes Raid on English Coast.

London, Sept. 4.—One person was killed and six were injured by seven bombs dropped in the aerial raid over East Kent, it is announced officially. The attack was made by a single airplane and was directed against the important channel port of Dover.

Former Russian Premier Dead.

Petrograd, Sept. 4.—Boris Vladimirovich Sturmer, former premier and foreign minister, is dead from uraemia. He had been ill for a long time. Sturmer, with the late Monk Rasputin and former Minister of the Interior Protopoff, formed the trio known as "the dark forces" which aroused the Russians to revolt against the regime of Emperor Nicholas.

Iron Cross for Bernstorff.

Berlin, Sept. 4.—The Kaiser has received the newly appointed ambassador to Constantinople, Count Bernstorff, formerly ambassador to Washington, and personally presented him with the Iron cross on the white band, which distinguishes it from iron crosses earned on battlefields.

The biggest waterfalls in the world are the Victoria falls, on the Zambesi river, in Africa. The vast mass of water plunges sheer down a precipice over 400 feet deep.

WOMAN'S REALM

WHEAT CONSERVATION RECIPES

The Public Safety Auxiliary Conservation Committee desires each subscriber to the Dispatch to cut out the recipes given below which have been sent out from headquarters.

At the Pequot county fair it is desired that an exhibit be made of the reads and a conservation luncheon will also be served. It is desired that the women of Brainerd begin practicing this week on these breads:

Note—In all the following proportions a half pint measuring cup is used, and all measurements are level. The flour is measured after sifting.

Yeast Cornmeal Bread

1 1/4 cups liquid (milk or water.)
2 tablespoons sugar
1 tablespoon fat
2 teaspoons salt
1/2 cake compressed yeast, softened in 1/4 cup liquid.
2-3 cup cornmeal
2-3 cups flour.

Add the sugar, fat, and salt to liquid and bring to the boiling point. Add the cornmeal slowly, stirring constantly until all is added. Bring to the boiling point. Remove from the fire and cool. These proportions of cornmeal and water result in so thick a mixture that to add the given amounts of flour looks impossible. It can be done, however. Add compressed yeast softened in 1/4 cup water. Add flour and knead. Let rise until about double its bulk, knead again, and put in pans. When light, bake in a moderate oven for at least an hour.

If dried yeast is used, a sponge should be made from about 1/2 cup liquid taken from the amount given in the proportions and some of the flour. This is allowed to rise before adding the cornmeal mixture and the remainder of the flour.

Barley Yeast Bread

1 cup liquid (milk and water).
1 tablespoon sugar.
1 tablespoon fat.
1 teaspoon salt.
1/2 cake compressed yeast softened in some of the liquid.
1-1 1/2 cups barley flour.
2-1 1/2 cups wheat flour.

Rye Yeast Bread

1 cup liquid (milk and water)
2 tablespoons sugar
1 tablespoon fat
1 teaspoon salt
1/2 cake compressed yeast softened in 2 tablespoons water
2 1/4 cups rye flour
2 1/4 cups wheat flour.

Directions for Making Rye and Barley Breads

Combine ingredients, mix into a dough and knead. Let rise until double the original bulk and knead again and put in pans. When again double bulk bake about 45 minutes.

Yeast Oatmeal Bread

1 cup liquid (milk and water)
2 tablespoons sugar
1 tablespoon fat
1 teaspoon salt
1/2 cake compressed yeast, softened in 1/4 cup liquid.
1 cup rolled oats
2 1/2 cups wheat flour

Soak liquid and pour over rolled oats, sugar, salt, and fat. Let stand until lukewarm. Add yeast softened in warm water. Add flour and knead. Let rise until double its bulk. Knead again and place in pans. When light, bake 45 minutes to 1 hour in a moderate oven.

Steamed Brown Bread

1 cup cornmeal
1 cup bread crumbs
1/4 teaspoon salt
1/4 cup fat
2 eggs
2-3 cup sour milk
2 cups raw rolled oats
1/2 cup cut raisins
2 cups flour

Mix cornmeal, crumbs, salt, and soda. Add to sour milk and molasses. Steam three to four hours. Bread may be dried or in the oven for about fifteen minutes.

Oatmeal Cookies (Rocks)

1 cup sugar
1/4 teaspoon salt
1/4 cup fat
2 eggs
2-3 cup sour milk
2 cups raw rolled oats
1/2 cup cut raisins
2 cups flour
1/2 teaspoon soda
1/2 teaspoon cinnamon
1/2 teaspoon cloves

Mix sugar, salt, melted fat, and eggs. Add sour milk, rolled oats, and raisins. Add flour, soda, salt, and spice sifted together. Drop from a teaspoon onto oiled pans, leaving an inch space between cookies. Bake in a hot oven.

Gingerbread

1 cup molasses
1 cup sugar
1 cup shortening
1 cup hot water
2 teaspoons soda
1 egg
1 teaspoon each of ginger and cinnamon
1 scant teaspoon cloves
3 1/2 cups white flour
1/2 cup rye flour

Pour hot water over the soda and add quickly to the first listed ingredients and part of the flour.

For cake take 1/2 teaspoon ginger only, grated rind of lemon and 1/2 cup raisins.

WOMAN'S EXCHANGE AT THE MAKRET

Our public spirited women are cordially invited to organize a Woman's Exchange for the purpose of selling anything they may have or may make for sale.

This will furnish an outlet for such products as good pies, cakes, bread, jam, canned fruits, etc., which they wish to convert into ready cash.

The public market will gladly assign them suitable space for such a purpose free of charge, except a small fee of 5 percent on the sales to help pay expenses.

Church societies and other similar organizations, who have any thing to sell are also welcome to space on the same terms.

The active participation of the ladies I feel will insure the success of this new enterprise.

P. B. NETTLETON,
For the C. of C. Committee.

Sales at the new market before it was fairly opened, were Wednesday \$19.95. Thursday \$16. Friday two men came in and each wanted a load of hay, left their names. Two farmers brought in a load each shortly thereafter. Market manager called purchasers. They came over and took both loads at once. This only one illustration of how it works.

Sales in the new market Saturday were \$46. The market is open every day. The tables are nearly cleared daily yet there is room for more produce and more buyers.

McGivern-Kiewel
(Little Falls Transcript)

Miss Marian Louise Kiewel, daughter of Mr. and Mrs. Jacob Kiewel, was married Saturday forenoon at 11 o'clock at the parsonage of the Sacred Heart church to Bernard Vincent McGivern of Brainerd, son of B. V. McGivern of Staples. Rev. J. P. Altendorf performed the ceremony.

The bride wore a gown of turquoise satin and georgette crepe with hat to match and carried American Beauty roses. Her traveling suit was of gray silvertone cloth with hat to match. Miss Loretta Kiewel of Fergus Falls was bridesmaid. She wore a gown of pink chiffon taffeta and carried Russell roses. The best man was Ray McGivern of Staples, a brother of the groom.

After the ceremony a reception was held at the home of the bride's parents, 603 Seventh street northeast. The decorations at the home were in pink and white, with sweet peas and roses. Mrs. Frank Hall furnished music at the reception. Only immediate relatives and friends were present. Misses Johanna and Elsie Kummert, Adeline Blake, Ruth Lane, Mabel Graham and Vina Holm presided at the table.

Out-of-town guests at the wedding were Mr. and Mrs. G. R. Kiewel and daughter Loretta and Mrs. J. H. Grass, Fergus Falls; Mr. and Mrs. Charles Kiewel, Mr. and Mrs. Benjamin Kiewel and Mr. and Mrs. John Medved, Crookston; Miss Ida Hamner, St. Paul; Mrs. Mary Burau, Elizabeth; Mr. and Mrs. Frank McGivern and Ray and Howard McGivern, Staples; Mrs. P. D. O'Brien, Gilles O'Brien, H. F. Kroes, Dr. Harry Murphy and Mrs. Herman Widener, of Brainerd.

After a wedding trip to Chicago and points in Michigan, Mr. and Mrs. McGivern will be at home after Oct. 1 in the Koop flats at Brainerd, where Mr. McGivern is employed in the offices of the Northern Pacific Railway company.

Ladies Guild Meeting

The Ladies Guild of St. Paul's church will meet Wednesday afternoon at 2:30 in the Guild hall. Miss Moreland of the N. P. hospital will have charge of a canning demonstration at which beets and other vegetables will be present. All members are urged to be present and all others who are interested are welcome. Mrs. Forsythe will be hostess.

Each lady attending will please bring a quart glass preserving jar and paring knife. The vegetables put up at this demonstration will be used for the church.

Are You Lucky?

In August the air is full of pollen and dust that cause trouble for some, yet others are never bothered. No remedy does more to relieve hay fever and asthma than Foley's Honey and Tar Compound for coughs, colds and croup. It clears and soothes the afflicted nose, throat and bronchial tubes. H. P. Dunn, druggist.—Adv. mwf

At the Best Tonight

"The Lone Wolf," Herbert Brenon's picturization of Louis Joseph Vance's thrilling novel of mystery and adventure, will be the picture attraction on the program of the Best theatre tonight.

This is Mr. Brenon's third contribution to screen history under the Selznick-Pictures trademark, but is his first venture in the field of high-class melodrama, and the result is expected to prove a sensation not soon to be forgotten.

Brainerd County Fair

The Ladies' Aid society of the Methodist church will put on an entertainment entitled "The County Fair" on Friday evening, Sept. 7th, in the social rooms of the church. At this time there may be seen a host of interesting and amusing events which are representations of those which take place at the ordinary county fair. A complete list of these attractions will be announced later. The ladies request that this date be kept free from other engagements so that all may visit the county fair in Brainerd.

Presbyterian Aid

The Ladies' Aid society of the Presbyterian church will be entertained by Mrs. J. C. Alexander and Mrs. Albert Erickson at the home of Mrs. Alexander, 1311 Rosewood St., on Wednesday afternoon, Sept. 5th. Visitors are welcome.

People's Congregational Aid

The ladies aid of the People's Congregational church will be held on Wednesday afternoon at the church parlors by the ladies of the society. Everybody welcome.

Methodist Ladies' Aid

Wednesday afternoon the Methodist Ladies' Aid society will be entertained by Mrs. H. F. Michael and Mrs. Frank Titus in the social rooms of the church. Visitors are cordially welcome.

Philathea Bible Class

Last evening the Philathea Bible class of the Methodist Sunday school were pleasantly entertained by Mrs. G. E. Lammon at her home on Bluff avenue. Miss Mildred Farwell won the contest prize. Dainty refreshments were served.

Announce Wedding

In letters sent to friends, Mr. and Mrs. John W. Smith announced the marriage of their daughter, Sophia Katherine Smith, to Albert O. Rudh, August 2. They will be at home after October 1 at East Grand Forks.

Bible Class Meeting

The lesson meeting of the Bible class of the Evangelical church of Northeast Brainerd will be held tonight at the home of Mrs. Richard Ehinger on Fourth avenue Northeast.

First Baptist Aid

The Ladies' Aid society of the First Baptist church will be entertained by Mrs. P. J. Walters, 123 Main street, on Wednesday afternoon and all visitors are cordially welcome.

He Felt Like Ninety

Nothing makes a person feel old quicker than disordered kidneys. They cause aches and pains all over the body. A. W. Morgan, Angola, La., writes: "Oh, I suffered with pain in my back. I am 43 years old, but I felt like a man 90 years old. Since I took Foley Kidney Pills I feel like I did when I was 21." H. P. Dunn, druggist.—Adv. mwf

THE LAXATIVE FOR YOU

Because its function is not merely "action at any cost." It does the work freely, easily and more effectively than a violent laxative because it does it as Nature would have it done. Try SANITOL. (Figs Cassare (tablets), Figs and Figs.)

LAMMON'S PHARMACY

Calcutta has a botanical garden in which plants of the temperate zone are kept alive in cold houses, much as tropical plants are preserved in hot-houses in this climate.

MAY PROSECUTE CHICAGO MAYOR

Illinois Patriotic Bodies Liable to Take Action.

GOVERNOR LOWDEN AROUSED

Providing Police Protection for People's Peace Council, in Defiance of Orders From State Executive, Is the Basis for Charges Which May Be Laid Before Grand Jury.

Chicago, Sept. 4.—Whether charges against Mayor William Hale Thompson will be laid before a grand jury will be decided at a meeting of the executive committee of the National Security league, it was announced.

Action of the mayor in providing police protection for the People's Peace council, in defiance of orders by Governor Lowden, was discussed by members of the Illinois council of defense and other patriotic bodies.

"So far as I am concerned I purpose to put it to the test that those who are not for the government are against it," Governor Lowden said after a conference with Attorney General Brundage. He would not say whether he contemplates any action against Mayor Thompson.

"I shall employ the full power of the state in suppressing the meetings of the People's Peace council," the governor said. "What I say regarding this society applies equally to others which may seek to obstruct the government."

Delegates to the People's council made no more efforts to hold further meetings. The council's resolutions endorsed President Wilson's note to Pope Benedict as the first clear and definite statement of America's peace aims.

They also scored the governors of Minnesota, Wisconsin and Illinois.

ONE TEST IN TIME OF WAR

Illinois Governor Brands Certain Pacifists as Traitors.

Ottawa, Ill., Sept. 4.—Governor Frank O. Lowden, in a Labor day address, defined freedom of speech and branded as traitors those pacifists who are harassing the government in the prosecution of the war. He said nothing directly in regard to the pacifist row in Chicago.

"I agree with all my heart in freedom of speech," the governor said. "That is one of the things we are fighting for in this war, but civilization has adopted a definition to the effect that it is treason to say anything which will give aid or comfort to the enemy."

"I would consider myself a traitor if I did not support the government. There is only one test in time of war—we are either with the government or against it."

Three Killed as Car Hits Auto.

Richmond, Ind., Sept. 4.—Three persons were killed and two others seriously injured when an automobile in which they were riding was struck by an interurban traction car at a crossing near here.

Jiffy-Jell

is a new, perfected gelatine dessert—a highest grade gelatine, and with a big new feature.

It is flavored with real fruit juices, sealed in glass vials. Choice of seven real fruit flavors. Also Mint Jiffy-Jell for mint sauce and salads.

TUESDAY, SEPTEMBER 4, 1917

Your Flag and my Flag!
And, oh, how much it holds
Of your Land and my Land
Safe within its folds.
Your heart and my heart;
Beat quicker at the sight;
Sun-kissed and wind-kissed,
The Red, the Blue and White!
The one Flag—the Great Flag—
The Flag for me and you—
Glorified the whole world wide—
The Red, the White, the Blue!

THE HOPE OF RUSSIA

Seldom in history has any nation based its hopes so completely on one man as Russia is basing hers today. He is a man whom none of us ever heard of before the revolution broke. He was an inconspicuous member of the Duma, a young Petrograd lawyer in his early thirties, a bright student and a forceful speaker, but handicapped by his physical weakness and giving no evidence of genius.

The blossoming of the revolution brought out Kerensky's greatness, just as the French revolution developed so many youthful leaders. He is today a world figure. On his frail shoulders hang the destinies of a great people, the huge hinterland of two continents and possibly the liberties of the world.

To him has fallen the task of taking 160,000,000 people, untrained in government, drunk with freedom and eager for peace, and turning their energies into orderly channels, giving them respect for law and discipline, rousing their fighting spirit and turning them against the enemy that menaces their future. And beyond this purely human problem is a task of incalculable difficulty. The material resources of Russia must be re-organized. Her industry and transportation must be revolutionized as thoroughly as her politics.

And all this burden rests upon a boy who is dying of tuberculosis.

Recent reports regarding Kerensky's condition are disquieting. It is said that after every speech—and he is always speech-making—he is exhausted and racked by coughing spells. The weaker his body becomes, the stronger glows the fire of his spirit. But can this burning intensity win the battle?

He knows that the victory must come soon, if he is to win. "Hereditary disease," he told some friends recently, "have numbered my days. I must hasten the work of liberating Russia and do the greatest good I can before I go. Peace now would make us future vassals of the Kaiser, which would be worse than being vassals of the Russian Czar."

Kerensky is today the most picturesque figure in the world—and the most pitiful, and possibly the most useful. May he be spared to finish his work!

Elk River boasts of a farmer who from a 35 acre field of potatoes received \$6,000. This farmer got top price for an early variety and had the money to his credit before his neighbor friends had their spuds dug. The St. Cloud Journal-Press compares this man's income of \$170 per acre with that of a Stearns county farmer who receives more than \$200 net per acre from a tobacco crop. These are indications that the farmer with a highly cultivated plot of ground can make greater returns than a majority of the business houses of the country. Crow Wing county boasts of a two acre patch of potatoes that the owners have already taken and sold \$398 from and less than an acre has been dug. This yield was on new ground, of an early variety and the owners benighted by

the high price prevailing when their first spuds were ready for market, but it all goes to show that "It can be did."

The ore barges loaded with a cargo from the Cuyuna range iron mines blocked river traffic at Winona and passenger boats on the river had to ship their travelers by rail to the twin cities. When the real shipment of iron ore from this section starts there will be a change in the monotony of river traffic that has been stagnant for the past number of years.

At midnight of September 8 all manufacture of distilled liquor in the United States will stop and the liquor interests in various parts of the country have been looking for other investments and industries.

Brainerd business concerns engaged in the handling, sale or distribution of food stuffs are receiving blanks for the making out of reports for the food survey now being conducted by the federal government.

ALL RECORDS ARE BROKEN

Over 116,000 Persons Attend Opening of Minnesota Fair.

St. Paul, Sept. 4.—Breaking all records for a single day an army of more than 116,000 men, women and children mobilized on the opening day of the state fair to see evidence of Minnesota's resources and an exhibition of its patriotism.

When the gates closed for the night the turnstiles had recorded an attendance of 116,555. The largest previous attendance for a single day was 100,792 on the opening day of the 1912 fair.

PEACE TALK IN GERMANY

Main Topic Before Next Session of Reichstag.

Amsterdam, Sept. 4.—According to the most reliable authority the next session of the German reichstag will be devoted exclusively to the question of peace.

The majority has decided to challenge the statement of the government regarding its minimum peace program and it is said the government will yield with a view to peace negotiations before Christmas.

The German government, according to this authority, favors the plenipotentiaries meeting either at The Hague, Berne or Copenhagen, but preferably The Hague.

CANNOT IMPOSE ITS WILL

Secretary Wilson Asserts German Autocracy is Doomed.

New York, Sept. 4.—Secretary of Labor Wilson told a large gathering of laboring people in Prospect park that the American working man, farmer or wage earner has "sacrificed too much in establishing and maintaining democracy in this country to permit German autocracy to impose its will on America."

"Ninety-five per cent of the wage workers of America," Secretary Wilson said, "will die in the trenches or on the field rather than permit the Kaiser to establish his rule over the United States."

URGES ALL TO AID IN WAR

Champ Clark Enthusias Over Men Going to the Front.

Monmouth Court House, N. J., Sept. 4.—Unqualified support of the government in the war was urged as the duty of every United States citizen, native and naturalized, by Speaker Champ Clark, in an address here on the famous Revolutionary war battlefield.

"No nation will long endure, or deserves to endure, that does not protect all of its citizens wherever they may be, on land or sea," he declared. Praising President Wilson's reply to the pope's peace proposal the speaker said it "will be read forever and forever."

"We have not degenerated into a race of mollycoddles," he declared, "as certain pessimists claim, a fact which will be clearly demonstrated in the immediate future. A finer body of young men never went forth to battle than our soldiers now swiftly forming in the ranks of war."

A PRIZE CONTENDER

This little pig isn't going to market—at least for awhile. It's going to the Minnesota State Fair, Sept. 3 to 8, where it will be enrolled in the pig club contest. Exhibitors in this show are taking an active part in the food training camp program at the fair.

Home-Reading Course For Our Citizen-Soldiers

(Issued by the War Department and all rights to reprint reserved)

This course of thirty daily lessons is offered to the men selected for service in the National Army as a practical help in getting started in the right way. It is informal in tone and does not attempt to give binding rules and directions. These are contained in the various manuals and regulations of the United States Army, to which this Course is merely introductory.

LESSON NO. 16.

STAFF BRANCHES OF THE SERVICE—1.

(PRECEDING LESSONS—1. Your Post of Honor. 2. Making Good as a Soldier. 3. Nine Qualities of a Soldier. 4. Getting Ready for Camp. 5. First Days in Camp. 6. Cleanliness in Camp. 7. Your Health. 8. Marching and Care of Feet. 9. Your Equipment and Arms. 10. Recreation in Camp. 11. Playing the Game. 12. Team Work in the Army. 13. Grouping Men into Teams. 14. The Team Leaders. 15. Fighting arms of the service.)

In addition to the three fighting arms—infantry, cavalry and artillery—there are nine branches of the army known as the staff corps and department. In general their first and most important duty is not fighting, but assisting those who do fight, by providing them with everything they need. Very few people outside the army have a clear idea of the organization of these nine branches or of their duties.

Following are the staff corps and departments: General Staff Corps; Adjutant General's Department; Inspector General's Department; Judge Advocate General's Department; Engineer Corps; Signal Corps; Medical Department; Quartermaster Corps; Ordnance Department.

The first four of the staff branches just named are composed entirely of experienced and capable officers. The other five include enlisted men as well as officers.

The Brains of the Army
The business of the General Staff Corps is to study military problems of all kinds, to work out the best solutions, and to report to the Chief of Staff of the army. It is often called the "brains of the army," and it would be hard to give a better description in a few words. The War College division of the General Staff Corps is devoted to the study and investigation of new and special problems.

In time of war some of the members of the General Staff Corps serve with the generals in the field and assist them in solving and handling their various problems. While on this duty the senior General Staff officer acts as chief of staff of the commanding general. This position is not to be confused with that of Chief of Staff of the army, who has general supervision of all military operations, both at home and in the field.

The Adjutant General's department has charge of all of the records relating to officers and enlisted men. Issues orders to carry out the wishes of the commanding officer, and carries on military correspondence. In every battalion and regiment one of the officers of the line is detailed as adjutant to perform for his organization the duties just named.

Military Observers

The Inspector General's department observes everything that goes on and reports on the skill and general fitness of officers and troops. At intervals an officer from the Inspector General's department reviews the men in each organization; examines their arms, equipment, and supplies; looks over all records showing expenditures of money or distribution of property; and sends in a complete report, pointing out the good and bad features of the organization. In this way the higher officers are kept informed at all times as to the state of affairs in every section of the army.

The Judge Advocate General's de-

partment is the legal department of the army. It prepares opinions on legal questions for the guidance of other officers or departments; serves as the representative of the law in military courts, and keeps the legal records of the army. Closely related is the office of Provost Marshal General, who has charge among other things, of enforcing the selective-service law.

Unless you work your way up to a commission, it is not likely that you will come into touch in any direct way with any of the four staff departments just named. Their duties are reviewed here simply because it should be interesting to you to know how the great army machine is kept well oiled and running smoothly even in periods of great difficulty.

The Engineer Corps

You will frequently see the other five staff branches in operation, however, throughout your army life.

The Corps of Engineers are the skilled workmen of the army. They lay out permanent camps and entrenchments; build and repair military roads, railroads, and bridges; dig saps and mines under the enemy's trenches; and take care of other work which requires technical skill of this character.

Theoretically the Engineer Corp is not one of the fighting arms; but in practice they are often called upon to fight and to perform dangerous duties. They may build bridges or dig entrenchments, for example, under the enemy's fire. In modern warfare the engineers play a highly important—and often an heroic—part.

The Signal Corps is the message-bearer of the army. It carries information and orders from one headquarters to another. It is today as essential as the telephone is to the conduct of a great business.

The Signal Corps

At one time the Signal Corps transmitted messages chiefly through the use of flags, lanterns, heliographs (mirrors so arranged as to reflect and flash rays of light), and the like. Then came a period during which it was chiefly concerned with laying down and operating telegraph and telephone lines; and this is still one of its most important duties. However, the wireless is becoming more and more important, even on the battlefield.

A first-class signalman is expert with all these various methods. He is also a good horseman, since he must be able to move about rapidly. His duties may frequently carry him into the battle line and into other dangerous positions, and he must know how to defend himself; his chief weapon is the pistol. There is no branch of the service in which a man's intelligence, initiative and technical skill count for more.

The Signal Corps of the American army includes the aviation section, which has grown to be of such vital importance. The best-known types of air planes are the scouting machine, which goes out to get information by flying over the enemy's lines; the bombing machine, which goes out to do as much damage as possible to the enemy's military works; and the swift fighting machine, which attacks enemy air planes and protects the slower scouting and bombing machines. The work is dangerous, but partly for this reason is especially attractive to men of high intelligence and daring.

DRAFTED MEN IN PARADE

Thousands Turn Out to Greet New Army in St. Paul.

St. Paul, Sept. 1.—From a hundred thousand throats St. Paul spoke for democracy as it honored the city's first contribution to the national army. Members of America's new army, assembled for the first time from the city's many homes, marched in a military parade that sent thrills and cheers through packed crowds as 100,000 men, women and children lined the route of the marchers.

Turning from the parade more than 8,500 persons crowded into the Auditorium and heard Clarence S. Darrow, noted labor advocate, urge wholehearted devotion to the destruction of Prussian militarism and pictured victory for the armies of liberty through the new American army.

Meyerbeer.

Meyerbeer was so nervous and "fidgety" about his works that when they were in course of preparation or rehearsal or performance he never gave himself or any one else concerned a moment's peace of mind. He was constantly making changes or alterations in the score and would sometimes write a passage in three or four different colored inks in order to try the different effects and then could not make up his mind which was the best. He worried over his opera "L'Africaine" so long, delaying, retouching and polishing, even while it was in rehearsal, that the self imposed labor made him ill, and he died before the first public performance.

When a man finally succeeds in putting his past to sleep he is always afraid some one will come along and wake it up.—Chicago News.

RECORD YEAR FOR INTERNAL REVENUE

Washington, Sept. 4.—All previous American records for consumption of whisky, cigars, cigarettes and tobacco apparently went by the boards in the past year. The preliminary report of Commissioner of Internal Revenue Osborne, covering the twelve months ending June 30, shows record tax collections on these and other articles. Here are the grand totals of production upon which taxes were paid:

Distilled spirits from every source, 164,665,246 gallons, an increase of 26,000,000 gallons over the previous year, yielding a tax return of \$186,563,055. Cigars of all descriptions and weight, 9,216,901,112—approximately 90 per capita, as compared with 8,337,720,530 the previous year.

Cigarettes, 30,529,193,538, as compared with 21,087,757,078, an increase of more than 40 per cent.

Tobacco, chewing and smoking, 445,763,206 pounds, an increase of 28,500,000 pounds.

MINNESOTA INCOME TAXES

Preliminary Federal Report Gives Interesting Figures.

Washington, Sept. 4.—Minnesota corporations in the past fiscal year paid \$4,618,464.76 income taxes to the government. The returns by individuals in the Gopher state totaled \$1,814,431.32.

Individuals and corporations throughout the country paid the government \$259,647,971 in income taxes, the preliminary report of Commissioner of Internal Revenue Osborne shows, the sum being almost equally divided between corporations and individuals. The exact returns show corporations paid \$179,539,631; individuals, \$180,108,340.

BUSINESS AT WAR MEETING

Important Gathering at Atlantic City Sept. 16 to 21.

Washington, Sept. 4.—Government control of prices, government establishment of priority in manufacture and shipment of materials, industrial relations and other related topics will come up for discussion at what promises to be the greatest gathering of business men ever held in this country at Atlantic City Sept. 16 to 21.

The business interests, at the call of the Chamber of Commerce of the United States, will consider how greater service can be rendered in winning the war.

MAY SEND 4,000,000 MEN

General L. E. Wood Forecasts Hard Fighting in France.

Fort Riley, Kan., Sept. 1.—It is not impossible that from 2,500,000 to 4,000,000 soldiers will be fighting on battlefields of France before the war is won, Major General Leonard E. Wood, who is to be in command of Camp Funston, declared here at a reception given in his honor.

General Wood said universal service is the only sure guarantee for a lasting democracy and urged the civilian population to give its utmost support to the Red Cross and the Y. M. C. A. to grow large crops and economize in every way to help win the war.

SIXTH AND ROBERT STREETS

SAINT PAUL, MINN.

E. R. BLAKE WRITES FROM MO. BARRACKS

Describes St. Louis—Is to go to Rockford, Ill.—War May Last Four Years Longer

BUSH MAY GO TO ST. LOUIS TEAM

Heard Naval Quartet That Sang at Empress Here—Six Shots of Anti-Typhoid

Aug. 31, 1917.

Brainerd Dispatch,

Gentlemen:—I could feel it coming and today it came. They read off a shipment to go to Rockford, Ill., and I was lucky enough to be on it. At Rockford is one of the new cantonments and is to be the home for the Illinois drafted men. It is to be a home for about twenty-five thousand men. Many of the officers there are from Jefferson Barracks and a fine bunch of men. It is too bad the Minnesota boys could not be sent there as they will receive the best treatment but any place in the army nowadays you are treated as though you were some one if you do the right thing and if not, then look out for the guard house. And a word about the guard house; it is the easiest place to get into and the hardest place to get out that I know of. I wish to state I have never been there but you have to be on the lookout or you will get there. But for the fellows going to the camp on Sept. 5 I would say to them to do as you are told and they will escape the "Mill" as it is called.

St. Louis is a very nice place for a fellow with a lot of money to spend, but a very poor place for a thirty dollar soldier. You can buy one good meal on that though. But don't buy it too soon after payday as you will be a long time broke if you don't wait. I know from experience and spent about twenty days broke. Of course some fellows save but the most of them figure they are going to be sent to France and the chances are about 99 to 1 of being shot and they do not want to die with any money in their pockets so they keep it in circulation.

The shipment Monday is men who enlisted in the quartermaster corps and are to be sent to all the different cantonments throughout the country. They are clerks, stenographers, chauffeurs and all men that have anything to do with the transportation and supplies of the army. It is a very interesting corps to be in and there is to be one cantonment camp where ten thousand quartermasters are to be trained. Also the feeling that every one had that the drafted men are going to be treated badly is without foundation as they in reality going to have things better than we are having now (and that is going some.) In about a year's time there will be distinction between the national and regular army.

Failed to see Bush when the Athletics played here last as he was suspended the week before their trip here. If money will do anything with Mack, Bush will be wearing a St. Louis uniform next season. He is wanted by every American League team as he has a very large following throughout the east.

I very seldom see any one from home that I know or have ever met but last night I went to the Y. M. C. A. to hear a naval quartette and I noticed it was the same fellows that sang at the Empress about four months ago. They wanted to know how Tom Woods liked the navy.

We are now getting our second series of typhoid inoculations. You are given one the day you take the oath, then another seven days from then and then another seven days from that. That with the vaccination was all they used to give but an order came out the other day that every one must have three more. And let me say that although they are just like a hypodermic they sure do hurt. And every one is getting a little larger than the one before. Have had five so only have one more and am hoping they forget I am at Rockford. The only thing left for them to do is to inoculate you so you can't get shot and then will be satisfied.

From reports we hear once in a while the war will last about four more years. This is not official of course but some officers gave a talk some place down south and made the statement I was told, and all the fellows were going to send their uniforms home for hunting clothes next fall.

Well as I have taken up enough of your time and my arm is feeling fine from the shot we got yesterday I will close.

Sincerely yours,

E. R. BLAKE.

DESPONDENCY CAUSE OF DEATH

A letter found written by Mrs. Lottie Dunbar, wife of Freeman Dunbar, dated August 29 shortly before she committed suicide by hanging, gives proof of the despondency suffered by her and which led to her death.

She wrote her mother as follows: "I got a letter from Stewart saying that father is at Portal. I wish you would call him up and tell him to come home, and you both come to Brainerd. I am afraid I am losing my mind. From Lottie."

The funeral was held at 10:30 Tuesday morning from the Baptist church, Rev. R. E. Cody officiating.

AUTO IN DITCH, TWO HURT

Car of Otto Reinhardt, City Weighmaster, Over Bank Into Buffalo Creek

The car of Otto Reinhardt, city weighmaster, went over a steep bank at the approach to the Buffalo creek bridge and he broke his collar bone and was taken to a hospital. Robert Peterson was also badly injured. Emil Albertson escaped with bruises. The car was badly damaged.

BRAINERD'S ODDEST STORIES OF TODAY

Barney McGivern, who was married Saturday at Little Falls to Miss Kiewel, ordered his pass to Chicago in advance of the wedding and was so pleased when he saw the words Mr. and Mrs. Barney McGivern adorn the pass, that he had to show it to all of his friends and two days before the ceremony he lost his transportation and advertised for the same in the Dispatch. He had a nervous time of it wondering if his wedding trip was to be delayed because he had lost the pass. At the last minute the Dispatch ad came to the rescue, somebody found the precious bit of paper and Barney went to his wedding, securely gripping the pass and giving it to the bride-to-be when he arrived at Little Falls.

WASTE PAPER SHIPMENT

Patrons of Community Depot Must be More Prompt to Make Possible Shipment Sept. 16

The public must be in a more practical co-operation with the Chamber of Commerce committee handling the shipments of waste paper, or it will be impossible to ship another car lot on September 15 as planned.

To secure the top prices, it is necessary to make a contract ahead and to ship when agreed. Unless 14 tons of paper can be listed, it is not practical to ship and thus far there has been few responses to the request to list paper for this shipment. If you have paper to ship, list it and do it now. The time is short and conditions so uncertain that it may not be possible to secure a car later on.

ROLL OF HONOR

Ralph Sleeper has been promoted again. He is now in the paymaster's office at the Great Lakes, Illinois, training station.

COUNCIL MEETING TONIGHT

Bids to be Received on Furnishing 1,000 Feet of Fire Hose, Routine Bills Up

The regular meeting of the city council will be held Tuesday evening and routine bills and reports will be brought up. The contract is to be awarded for furnishing 1,000 feet of fire hose and representatives of various houses are in the city to bid.

FARMER DEAD

Andrew Johnson of Pequot Died at a Local Hospital of Diabetes. Remains to Pequot

Andrew Johnson, age 55, well known farmer of Pequot, died of Bright's disease at a local hospital. He was a bachelor. The remains have been sent to his former home for burial.

Has Recovered Her Health So many women suffer from similar afflictions that this testimonial from Mrs. Laura Beall, Plattesburg, Miss., will be read with interest: "I got in bad health. My left side hurt all the time. I took doctor's medicine, but it did me no good. I took two bottles of Foley Kidney Pills and I feel all right now." H. P. Dunn, druggist.—Adv.

"INTOLERANCE" AT BRAINERD

Westcott Film Corporation Attraction Drew Good Houses Sunday and Monday

SYMPHONY ORCHESTRA PLAYED

Brainerd Saw the Tremendous Spectacle Before Duluth Got a Glimpse of it

"Intolerance," Griffith's tremendous spectacle, drew crowded houses at the opera house Sunday and Monday and the wonderful picture and the sympathetic music of the symphony orchestra enhanced the beauty of the picture.

Only a master mind like Griffith's could conceive and execute successfully a story with four scenes of actions in four periods of history, each historically correct and interpreted better than any words of historian or playwright.

The great siege of Belshazzar's city, its betrayal by the priests, the primitive method of fighting, left its impress on the audience which breathlessly followed every scene.

Intolerance in all the ages to the present was pictured with deep fidelity and every scene carried its punch. It was in fact the condensation of centuries of evolution.

GAME WARDEN GETS NETS

Hoop Net and Two Gill Nets Taken from the River Some Eight Miles North of Brainerd

Game Warden Cardle had it tipped off to him that a party was planning to take fish from the river in an illegal manner and on Monday his watch was rewarded. He had scanned the river from Brainerd north and at a point nearly eight miles up the Mississippi he came onto a party who had made extensive arrangements to sein for fish. On the river bank was a hoop net new and about 18 feet in length and two long gill nets. The people who had the nets beat a hasty retreat and for all Mr. Cardle knows are going still. The hoop net is a contrivance with wing dams on it and when set up in the game warden's yard presented a formidable appearance. The nets will be sent to the state game warden for disposition.

ON TAKING BICYCLE

Case Against Two Young Men Heard in Municipal Court and Decision Rendered

Roy and Guy Warner, charged with taking a bicycle, were in municipal court. Roy pleaded guilty, received thirty days and sentence was suspended providing he reported weekly to the chief and kept out of further trouble. Guy pleaded not guilty and the case was dismissed.

Dustin Farnum at the Best

Millions have read this wonderful story, published first in The Saturday Evening Post, and upon which the Pallas Pictures production of the same name is based. Dustin Farnum as "The Parson of Panamint," has literally immortalized by his screen characterization, one of the most interesting figures in the history of fiction of the great west.

At the Best theatre tomorrow.

BABY'S DEATH

Infant Child of Mr. and Mrs. George Sylvester Died of Stomach Trouble Saturday

The infant child of Mr. and Mrs. George Sylvester of Second street south died of stomach complaint Saturday and the funeral was held on Tuesday morning at 2:30 o'clock from the home, Rev. W. J. Lowrie officiating. The sympathy of friends and neighbors is extended to the bereaved family.

PARKS AUTOMATIC OILER COMPANY

New Device Perfected by Parks Bros. of Pillager, in Which Brainerd Man Interested

HENRY I. COHEN IS DIRECTOR

\$250,000 Incorporation Formed to Manufacture Oiler, Tried Out on M. & I. Railway

Pillager is soon to perhaps witness the erection of a large manufacturing plant for the Parks Automatic Oiler company, which has recently been incorporated at this place for \$250,000. This new company is being organized as a result of a car oiler patent which George and S. E. Parks of Pillager have invented, according to the Pillager Herald.

The oiler is a small steel contrivance which can be put in the journal boxes of any car, and in fact it can be used on any line shaft or any place almost that an oiler of any kind can be used. The little roller is fitted in a pan longitudinally, a small spring being at each corner of the pan. This is placed beneath the car journal, the springs holding it up tight against the journal. Oil is placed in the bottom of the box. As the car moves, the friction turns the roller which naturally carries the oil up with it to the journal, which then circles the journal, getting under the brass where it is needed. The faster the train moves, the faster the oiler will turn and the more oil it will give it. Thus it does away entirely with waste, and uses its same oil over and over.

On a test given it through the coldest weather of last winter on a logging car between Bemidji and Kelliher on the M. & I. Ry., it worked smoothly and to this day it has not caused the slightest trouble of any kind, having been on over nine months. Another test is being made and has been going on for some time, by equipping the tender of locomotive No. 13 used daily on the M. & I. freight between Brainerd and Bemidji. This, also, since being installed, has given no trouble and the engineer in charge and the train crew say it is the best thing they have ever seen. It has traveled now over 2,000 miles, using less than half a pint of oil for each box. This is a great saving, to say nothing of the waste, and the time used in "packing" the boxes with the old method.

The tests given the oiler have been watched by several prominent railroad officials of different roads, and when the company is put on a firm basis, orders for this new equipment will be given. When one considers all the railway cars, the street cars, etc., in the country, the scope of the company is unlimited, and millions of the oilers will be manufactured.

Ten thousand dollars worth of treasury stock of the new company is now being offered for sale at \$10 per share. Several from Pillager, Bemidji, Brainerd and other places have already purchased. Those who have seen it work claim it is the simplest and best thing they have ever seen. The company is organized under the laws of this state and has been approved by the new securities commission, whose business it is to pass on all new stock companies being formed in the state.

Henry I. Cohen of Brainerd is chairman of the board of directors of the company, the other members of the board being the Parks Brothers of Pillager. There is an immense field of work for the company to cover, and with sound judgment back of it as there is—It should in a few years work itself out to be one of the biggest things in America, as one railroad after another adopts the new mechanism. It is estimated that it will save any of the big trunk lines over half a million dollars a year in oil and waste, to say nothing of the bother and trouble caused by "hot boxes" with the present universal oiling system.

Feel Worse After Vacation

The change from outdoor activity of vacation time to the quiet of regular employment sometimes makes one feel heavy and "stuffed up," uncomfortable and bilious, with a mean headache and coated tongue. Foley Cathartic Tablets give prompt relief from these results of indigestion. Mild and gentle, but sure. H. P. Dunn, druggist.—Adv.

German Airplanes Bombard Dunkirk

(By United Press)

Paris, Sept. 4.—Thirteen German airplanes were downed on the French fighting front yesterday, according to official reports. A German plane bombarded Dunkirk killing a number and retreating for the French bombardment of the enemy stations in North Soissons, Belgium.

Again We Mention

SUITS

Fall and Winter Qualities

Women are not accustomed to thinking of suits as heavy enough for wear when the weather is cold but the suits this fall are quite different. The suits are made of very heavy materials and are as warm as many of the coats. The length of the coats makes them most attractive winter suits too.

H. F. MICHAEL CO.

R. M. HUGHES TO SPEAK AT PATRIOTIC MEETING

(Continued from page 1)

the war and the appreciation of the unselfish devotion of these young men to the flag, under which they have enjoyed the rights and privileges of good citizenship and for which they soon go to the front.

Reserved Seats

Seats in the front of the auditorium have been reserved for all drafted men and they are invited to occupy these and to feel that the event is in their particular honor.

It was impossible to learn the exact personnel of those who soon leave in response to the first call and the committee urges every man who has been drafted and examined, to take his place with his fellows in the reservation space set aside for them tonight.

G. A. R. Invited

The G. A. R. veterans and the ladies of the W. R. C. are also urged to be present in as large numbers as possible and reservations immediately back of those for the select draft men have been made for them. The program will require some time to carry out and the public is urged to be present promptly on the hour mentioned.

The Brainerd band is giving its services gratis to the cause on the recommendation of the mayor and council, and will be heard in a splendid program of patriotic music tonight.

Opportunities For Older Men

Because of the war many positions formerly filled by young men are open to older men. A man's kidneys may make him unfit for hard labor or clear thinking, may make him old before his time, for poisons retained in the system "slow him up" physically and mentally. Foley Kidney Pills tone up weak, disordered kidneys. H. P. Dunn, druggist.—Adv.

"Bobby, did you take that message to Mrs. Tanner, as I told you?"
"Yes'm."
"And what did you find out?"
"Mrs. Turner."—Boston Transcript.

Truck Buyer's Attention

The new Model T 1918 Ford Ton Truck Chassis is on exhibition in our show room. After experimenting five years on a truck, Henry Ford has finally put on the market a guaranteed one ton truck which sells for \$600. If you are interested in a truck for any purpose, whatsoever, do not fail to look at this wonderful chassis. We will gladly demonstrate it's carrying power to any one interested. The fact that Henry Ford has put his guarantee behind this proposition should be sufficient evidence of it's merit.

WILSON APPROVES LABOR GATHERING

Washington, Sept. 4.—Hearty approval of the conference of the American Alliance for Labor and Democracy to open in Minneapolis Wednesday and the task it will undertake of suppressing disloyalty was given to Samuel Gompers, president of the American Federation of Labor and chairman of the alliance.

The letter, made public here, denounces those who seek to ignore America's grievance against Germany and insists "that a nation whose citizens have been foully murdered under their own flag, whose neighbors have been invited to join in making conquest of international territory and whose patience in pressing the claims of justice and humanity has been met with the most shameful policy of treachery and betrayal, does not know its own mind and has no comprehensible reason for defending itself."

"While our soldiers and sailors are doing their manful work to hold back reaction in its most brutal and aggressive form," the president wrote, "we must oppose at home the organized and individual efforts of those dangerous elements who hide disloyalty behind a screen of specious and evasive phrases."

WAR CLAIMS MANY RAILROAD EMPLOYEES

New York, Sept. 4.—Every department of the Pennsylvania railroad has furnished volunteers to every branch of the military service.

There are 2,549 serving with the columns, of whom seventy are commissioned officers and thirty students at the various officers' training camps. With the first selection call 3,000 more men are to go and 57,000 other employees are liable to military service under the law.

Beware of Ointments for Catarrh that Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.—Adv't.

AUSTRIAN PRESS SCORES WILSON

Heaps Personal Abuse on American President.

ANGRY AT REPLY SENT POPE

Vienna Papers Say Note Dictates Terms to German People in Humiliating and Offensive Manner—Blame Military Caste of Russia for Precipitating the War.

Amsterdam, Sept. 4.—Vienna papers, like those of Germany, use the reply of President Wilson to Pope Benedict's peace proposals as a vehicle to heap personal abuse on the president. The Vienna Neue Freie Presse says:

"Even an unprejudiced person must lead to the conclusion that President Wilson's reply is the most partisan presentation imaginable, that lacks all justice, is filled with malignity and prejudice against Germany and shows that President Wilson has no inkling of Germany's political institutions or the character of the German people."

"President Wilson has not read that, in the Soukhomlinoff trial, the clear proof has been given that the war was unleashed by the military caste of Russia, even against the czar's will."

"He does not know and does not want to know that, by disregard of the London and Paris declarations, Great Britain is responsible for the entire misfortune at sea."

The paper further terms the note "nonsensical."

The Vienna Fremdenblatt declares: "The contents of President Wilson's reply are as unparalleled as the tone of the note. In a most humiliating and offensive manner terms are dictated to the German people, the fulfillment of which would constitute the most humiliating intervention in the most primitive rights of the German nation. If Germany lay prostrate, her army destroyed and fleet hors de combat, no more degrading terms could be proposed."

GERMANY AIDING AUSTRIA

Sending Large Bodies of Men to Fight Italians.

Washington, Sept. 4.—Dispatches to the Italian embassy say Germany is said to be sending large forces to the aid of the Austrians. Near the Carso a large section is reported to be wholly defended by German troops.

General Borovic is reported to have been removed, being blamed for much of the failure of the Austrians, and General Koevess named as his successor. According to the Vienna Fremdenblatt, General Borovic appealed to Von Hindenburg for aid and asked for a Bavarian division, but was refused.

WINNIPEG LOSES 15,000 MEN

War Toll Comes Chiefly From Wounded—One-fourth Dead.

Winnipeg, Sept. 4.—Winnipeg has suffered 15,000 casualties since the beginning of the war.

More than 50 per cent were wounded, about 25 per cent killed in action and the other 25 per cent is divided almost equally between missing and slightly injured.

U. S. TROOPS ARE POPULAR

French People Open Their Arms to Sammies.

Washington, Sept. 4.—Mme. Sans Suizer, wife of the new Swiss minister to the United States, a recent arrival from Paris, has given an interview on American soldiers in France.

"The English and Russians were quite out of it when those large, fresh, long-limbed boys of your came. 'How easier they looked, as if they could fight the world, and the French opened their arms to them. It is an important secret that the French soldier already likes the American soldier as he does no other, not even the British Tommy, with whom he has been brother in arms for so long. 'The Americans were homesick in that city 3,000 miles away. They never go about alone. You always see them in groups, two or three taxi loads traveling together.'"

NO DAMAGE IS REPORTED

Slight Earth Tremors Felt in Northern Minnesota.

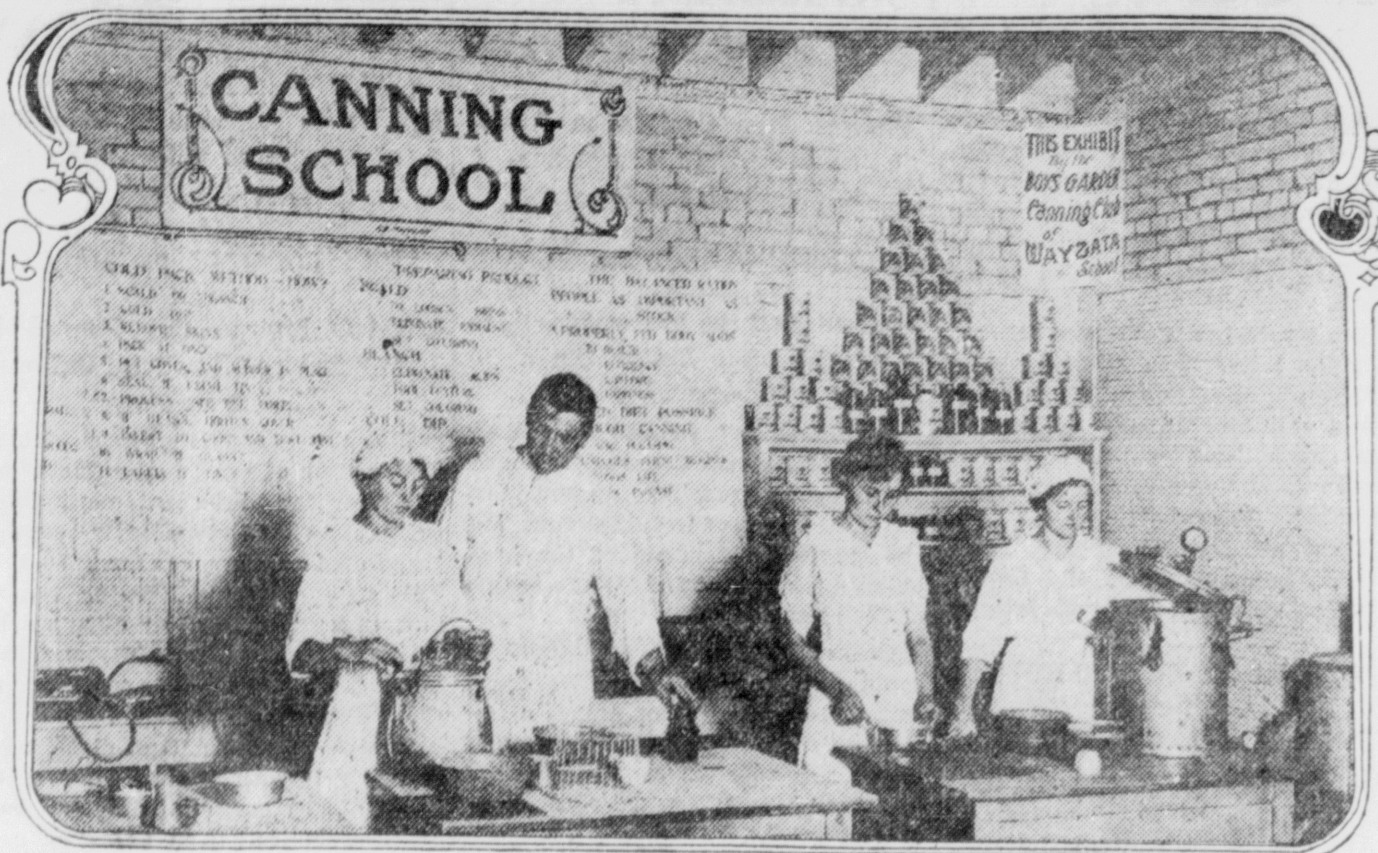

St. Paul, Sept. 4.—Parts of Northern Minnesota were visited by an earthquake. So far as could be learned it was the first quake in the known history of Minnesota. The quake was reported from: Brainerd—City and Crow Wing county shaken, the shock lasting eight seconds; dishes rattled and chimneys swayed; no damage done.

Little Falls—Shock felt throughout Morrison county; windows were shaken; no loss reported.

Staples—Quake recorded to have lasted twenty seconds, noticed only in the immediate vicinity of Staples.

Long Prairie—A slight shock was felt in different parts of Todd county; no damage done.

OUR JUVENILE FOOD ARMY

Members of the juvenile "food army" of the United States, chosen by elimination contests to demonstrate food conservation by canning at Minnesota Fair, Sept. 3 to 8, will be one of the leading features at the Fair. The thousands of tons of fruits and vegetables which go to waste in this state annually will not be permitted to go to waste in another year if these earnest purposed children have anything to say about it.

RUSSIAN FORCES EVACUATE RIGA

Large Seaport Is Now in German Hands.

SLAVS BADLY DISORGANIZED

Some of the Defenders Offer Resistance to Teutons, but Others Show White Feather—Italians Steadily Pressing Austrians Backward—British Shelling Enemy Positions in Flanders.

London, Sept. 4.—Riga, Russia's big port on the Gulf of Riga, is in the hands of the Germans and its garrison and the civilian population are in retreat eastward.

Following up rapidly the advantage they gained in driving the Russians across the Dvina river on both sides of Uxkull Saturday the Germans threw bridges across this stream and soon were on the heels of the former defenders, some of whom offered resistance, but others showed the white feather, giving the invaders no trouble in marching up the eastern bank of the Dvina toward Riga—fifteen miles distant.

Seeing the disaffection and the inability to stem the tide of the advance the Russian commander ordered an evacuation.

With the falling back of the Russians from the city proper and the advance of the Germans northward along both sides of the stream the Russians still defending the western bank around Dahlen seemingly are in danger of being caught between the two fast moving bodies of the enemy and made prisoner.

Behind them the Russians, in their retreat from Riga, are laying the country in waste, burning villages and farms. Whether the city itself remains intact has not been made known, but doubtless the guns in the fortress and the ammunition stores either were moved or destroyed to prevent them falling into the hands of the Germans.

Controls Gulf of Riga.

Aside from the strategic value of controlling the Gulf of Riga and of a base nearer the mouth of the Gulf of Finland, at the head of which Petrograd is situated, for the moment it is impossible to see the importance of the German gain, especially with the near approach of winter, when military operations in this northern region are almost impossible.

On none of the other fronts have there been operations of great moment, except in the Austro-Italian theater, where the Italians have made further progress on the Bainsizza plateau and in the Brestovizza valley and at various points along the line have repulsed fresh counter attacks launched by the Austrians.

Throughout this entire theater violent artillery duels are in progress from Holmbo to the sea.

The batteries of Field Marshal Haig still are pouring an incessant fire against the German trenches in Flanders, but as yet the anticipated new dash by his men to capture them has not started. Doubtless the knocking down of the defenses has not reached the limits which the British commander always requires before he throws his infantrymen into the fray.

Hard Work.

"Your friend seems to spend his money freely."

"I don't blame him. He got it by hard work."

"A self made man, eh?"

"Well, no. He married a stingy woman with a lot of money and coaxed it away from her."—Birmingham Age

CERTIFICATE OF INCORPORATION OF CUYUNA SOUTHERN RAILWAY COMPANY.

For the purpose of forming a body corporate under and by virtue of the provisions of Chapter 58 of the Revised laws of Minnesota, for the year 1905 and all laws amendatory thereof, the undersigned have adopted, signed, sealed and acknowledged the following certificate of incorporation.

ARTICLE I.

The name of this corporation shall be "Cuyuna Southern Railway Company" and the nature of its business shall be the construction, organization, maintenance and operation of railways, steam or electric, in the State of Minnesota and elsewhere and the places from which and to which the first main line of railroad is to be constructed, maintained and operated are as follows:

Commencing at a point at or near Deerwood, in Crow Wing County, Minnesota, and extending thence in a southerly direction through the County of Crow Wing, along the West side of Mille Lacs Lake and on the general southerly direction to some point on the Mississippi River at or near St. Paul, in the County of Ramsey and State of Minnesota. And to construct, maintain, operate and purchase such other lines as may be decided upon by said corporation and conformable to law. And this corporation shall have the right and is organized for the purpose of becoming a common carrier for hire and to acquire property for its use under the law of eminent domain. The principal place of business shall be Deerwood, Minnesota.

ARTICLE II.

The period of duration of such corporation shall be nine hundred and ninety-nine years.

ARTICLE III.

The names and places of residence and addresses of the incorporators are Cuyler Adams, Deerwood, Minnesota; C. C. Adams, Deerwood, Minnesota; and R. M. Adams, Deerwood, Minnesota.

ARTICLE IV.

The government of this corporation and management of its affairs shall be vested in a Board of Directors, three in number, each of whom shall be stockholders and the following officers to be chosen by the said Board of Directors from among the stockholders of said corporation, to-wit: President, Vice-President, Secretary, and Treasurer. Any two of said officers may be held by the same person with the exception of President and Vice-President. The Directors shall be elected by the stockholders by ballot, each stockholder being entitled to cast as many ballots as he has shares of stock annually on the first Monday in June in each and every year commencing with the month of June, 1918. The said officers and directors shall each hold office for one year from the first Monday in June and until their successors are elected and qualified. Until said officers are elected the following named persons shall act as the first Board of Directors, to-wit: Cuyler Adams, C. C. Adams, and R. M. Adams, and until such election the following named persons shall be officers of said corporation, Cuyler Adams President and Treasurer, C. C. Adams Vice-President, and R. M.

Adams Secretary. The annual meeting of both the stockholders and directors shall be held on the first Monday in June of each year, and besides which annual meeting any other special meetings may be held at such time and place as may be prescribed by the by-laws.

ARTICLE V.

The number of shares of the capital stock of said corporation shall be one thousand, and the amount thereof shall be one hundred dollars each and may be paid for either in property, money, or services as the Board of Directors shall elect, and said stock shall be subscribed for at such time, and in such amounts as prescribed by the Board of Directors. This corporation may commence doing business when twenty-five percent of the stock shall be subscribed for.

ARTICLE VI.

The highest amount of indebtedness or liability to which this corporation shall at any time be subject shall be one million dollars.

It Witness Whereof We have hereunto set our hands and seals this 24th day of August, 1917.

CUYLER ADAMS (Seal)
C. C. ADAMS (Seal)
R. M. ADAMS (Seal)

In presence of:
W. G. PEARSALE,
L. C. SMITH.

State of Minnesota, County of Crow Wing, ss.

On this 24th day of August, A. D. 1917, before me, a Notary Public within and for said County, personally appeared Cuyler Adams, C. C. Adams and R. M. Adams, to me known to be the persons described in and who executed the foregoing Certificate of Incorporation, and acknowledged that they executed the same as their free act and deed.

L. C. SMITH,
Notary Public,
(Seal) Crow Wing Co., Minn.

My commission expires Jan. 9, 1920.

State of Minnesota, Department of State.

I hereby certify that the within instrument was filed for record in this office on the 25th day of August, A. D. 1917, at 11 o'clock A. M., and was duly recorded in Book E-4 of Incorporations on page 345.

JULIUS A. SCHMAHL,
Secretary of State.

61974
State of Minnesota, County of Crow Wing, ss.

I hereby certify that the within instrument was filed in this office for record on the 28th day of August, A. D. 1917, at 9 o'clock A. M., and was duly recorded in Book Q of Misc., on page 28.

The New Method

Backache of any kind is often caused by kidney disorder, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, over-working the sick kidneys, hence the congestion of blood causes backache in the same manner as a similar congestion in the head causes headache. You become nervous, despondent, sick, feverish, irritable, have spots appearing before the eyes, bags under the lids, and lack ambition to do things.

"The latest and most effective means of overcoming this trouble, is to eat sparingly of meat, drink plenty water between meals and take a single Anuric tablet before each meal for a while," says the famous Dr. Pierce of Buffalo, N. Y.

Simply ask your favorite druggist for Anuric if you have lumbago, rheumatism, gout, dropsy, begin immediately with this novel treatment.
